Design Features

Layout

- Homepage-first Structure
- Navigation-based Information Architecture
- Separate CV and Publication Access

Visual

- Conservative Academic Web Style
- Low Decorative Load
- Clear Personal Identity Anchor

Information

- Research Areas Foregrounded
- Publications and CV Separated
- Academic Network and Group Context Visible

Technical

- Static Personal Webpage
- Durable Institutional Hosting
- Link-oriented Maintenance

Communication

- Strong Research Identity Signaling
- Reader Can Choose Detail Level
- Effective for Senior Researcher Breadth

Communication Problem

Communicate a broad senior research identity while allowing readers to move from overview to detailed CV, publications, and academic context.

Reading Notes

Strengths

- Good balance between identity, research direction, and deep links
- Highly credible because of institutional hosting
- Useful reference for senior academic CV ecosystems

Limitations

- Visual hierarchy is functional rather than refined
- Key information is distributed across links
- Less suitable as a standalone CV artifact
