Design Features

Layout

- Institution-generated Layout
- Section-based Profile Structure
- Contact and Affiliation Near Top

Visual

- Unified Institutional Visual Language
- Clear Typography
- Moderate Whitespace

Information

- Appointment and Affiliation Priority
- Research Interests Highlighted
- Publications and Profile Data Integrated

Technical

- Platform-maintained
- Standardized Data Fields
- Low Individual Layout Control

Communication

- Strong Authority Through Institutional Context
- Excellent Findability
- Less Personal Narrative Flexibility

Communication Problem

Provide institutionally verified researcher information in a standardized, searchable, and professionally trusted format.

Reading Notes

Strengths

- Very high credibility
- Strong discoverability
- Good for standardized comparison across researchers

Limitations

- Limited personal design expression
- Less control over information emphasis
- Institutional schema may not capture all research identity nuances
