Design Features

Layout

- Web-native Resume Layout
- Section-based Linear Reading Flow
- Compact Text Blocks

Visual

- Minimal Personal Web Style
- Typography-first Presentation
- Very Low Visual Ornament

Information

- Career Trajectory Priority
- Selected Roles and Achievements
- Personal Identity and Work History Integrated

Technical

- Plain Web Document
- Very Easy to Maintain
- Durable Link-based Publishing

Communication

- Fast Expert-reader Scanning
- Strong Personal Voice
- Less Formal Academic Segmentation

Communication Problem

Present a long and varied research career as a compact, web-readable personal resume without relying on a formal academic CV template.

Reading Notes

Strengths

- Extremely maintainable
- Efficient for readers who already understand the field
- Shows how personal voice can coexist with professional information

Limitations

- Less visually polished
- Not optimized for publication-heavy academic review
- May be harder to compare against formal academic CVs
