Design Features

Layout

- Minimal Link-hub Structure
- Research Topic First
- Direct Access to Papers and Software

Visual

- Bare Academic Web Style
- Almost No Decorative Layer
- Low Visual Hierarchy

Information

- Research Interests Foregrounded
- Papers and Software Prioritized
- Personal Background Kept Secondary

Technical

- Static Personal Webpage
- Very Low Maintenance Overhead
- Long-term Durable Structure

Communication

- Highly Efficient for Expert Readers
- Strong Artifact-oriented Communication
- Weak Guidance for Casual Readers

Communication Problem

Give expert readers direct access to research outputs, software, and intellectual context with minimal presentation overhead.

Reading Notes

Strengths

- Direct and durable
- Very low maintenance cost
- Strong example of research-output-first communication

Limitations

- Minimal visual affordance
- Low narrative framing
- Harder for non-expert readers to quickly infer importance
